

Part 2: Working with Figures

Audio Video Recordings

Starting a Recording

Use the Insert button on the toolbar and choose either an Audio Recording or Video Recording.

You will then be able to choose input devices and check levels. Clicking the Insert button will begin the recording.

While Recording

When making a video recording a tiny Preview Monitor window appears so you can see what the camera sees.

While recording you can go anywhere else in your project and continue to take notes. Note that if you close the project the recording will stop.

To Stop Recording

Use the Media Bar at the top of the window to stop your recording.

< Back Insert

Video Recording

Video Input FaceTime HD Camera (Built-in)

Audio Input Built-in Microphone

Specify the audio and video inputs and test your audio recording levels. Clicking the Insert button will create a snapshot figure in the idea space and recording will begin. A live preview will appear in a floating window. Stop the recording by clicking the big red stop button up in the Media Bar on the far right side of the Inspector Bar.
